She is painted white and was first seen on the night of the 29th April at anchor off Kambunjin Island, and at the same time two steam launches were seen cruising about in the outer part of the harbour, oh about the line taken by the submarine cable. In the day time our visitor was gone, but on Monday night (May 2nd) the launch was again seen in the harbour and the lights of a large vessel were again seen outside. What was going on your readers can guess as well as I. There is coal in Labuan and also at Muara at the mouth of the Brunei river. The cable is also landed at Labuan, and our visitors may have been in want of information on these two points.

The Japanese cruiser *Akitsushima* arrived in Victoria Harbour on Tuesday morning with the mails from Manila.

General Aguinaldo, who left Hongkong in the *MacCulloch* last week, was most cordially received by Admiral Dewey, who was most favourably impressed with him and believes he will be able to do some good work. The natives displayed great enthusiasm on his arrival. Consul Williams was delegated to take charge of him and receive his report in regard to the organisation and the line of forces. The Admiral turned over to him a couple of mounted field pieces and 500 rifles with 200,000 rounds of ammunition.

He did not let even his own fleet know where his own mines were, and they had to be exploded in order that his own vessels might not be injured by them.

A most cordial feeling exists between the masters of the British sailing vessels in Manila and the Americans, the latter doing everything they can to make the stay of the former pleasant. Admiral Dewey has purchased some 3,000 tons of coal from them, so that he has now an ample supply.

The papers in Manila are publishing daily all kinds of untrue statements regarding the American fleet. For instance it is asserted that the *Baltimore* was so injured in the naval action that she had been scuttled.

THANKING ADMIRAL DEWEY.

The following is a copy of the order relating to Admiral Dewey's promotion posted on the vessels of the American squadron at Manila:—

Naval Station,
Squadron General Order, No. 8, U. S. Flagship *Olympia*, Cavite, P. I. 19th May, 1898.

The following telegram from the Secretary of the Navy is published to the squadron by his direction:—

"Washington, 17th May, 1898.

"Dewey, Hongkong:

"Following is quotation from joint resolutions tendering thanks of Congress to Commodore George Dewey, U.S.N., and to officers and men of squadron under his command:

"Resolved by Senate and House of Representatives of the United States of America in Congress assembled.

"That in pursuance of the recommendation of the President, the thanks of Congress and of the American people are hereby tendered to Commodore George Dewey United States Navy, Commander-in-Chief of the United States Naval Force on the Asiatic Station, for highly distinguished conduct in conflict with the enemy as displayed by him in the destruction of the Spanish fleet and batteries in the harbor of Manila, Philippine Islands, May first, eighteen hundred and ninety-eight.

"That the thanks of Congress and the American people are hereby extended through Commodore Dewey to the officers and men under his command for the gallantry, and skill exhibited by them on that occasion.

"This act having been approved by the President of the United States on May tenth you have been commissioned Rear Admiral. The Department takes great pleasure in transmitting this information to you, which you will convey to officers and men under your command.—Long.

GEORGE DEWEY,
Rear Admiral U. S. Navy
Commanding

THE SHASI RIOT AND CHANG CHIH-TUNG'S MOVEMENTS.

Shanghai, 18th May.

The recent unfortunate riots at Shasi will interfere with H.E. the Viceroy Chang's present plans of going up to Peking, as the new post being under H.E.'s jurisdiction it is necessary that he should be on the spot to settle matters before resuming his journey northwards. It is therefore very likely that H.E. will return to Wuchang in his despatch vessel, the *Tsaiwei*, to-morrow the 19th instant.

20th May.

According to reports circulating amongst the local mandarins the instructions received by H.E. Viceroy Chang from Peking to return to his post at Wuchang were motived by the alarmist news received by the Tsungli Yamên from the Chinese Minister at Tokio, that Japan was going to send a small squadron to Shasi to exact reparation from China for the destruction of the Japanese Consulate there. Later news from Shasi, points to an orderly and peaceable conclusion to the recent disturbances there, the details of which can easily be settled by the present acting Viceroy and Governor of Hupeh, H.E. Tsai Chi-hsun. To this end H.E. Viceroy Chang has telegraphed to Peking asking for further instructions whether he should return to Wuchang, or proceed to Peking as originally planned.

21st May.

H.E. Chang Chih-tung started yesterday morning on his return to his post at Wuchang, where he will have to settle the recent Shasi trouble, and it is very doubtful now whether he will go to Peking at all.—*N. C. Daily News.*

STEAMERS ON THE INLAND WATERS.

Circular dispatches have recently been received by the Taotais of all Treaty ports from Tsungli Yamen, notifying the promulgation of an Imperial edict dated the 24th day of the 3rd moon (12th April) granting permission to use steamers in all inland waters, without restriction, in order to extend business facilities to the mercantile community of the Empire. The Imperial edict above noted is now being disseminated amongst the local authorities throughout the Empire and an impetus to inland trade will doubtless be the result.—*N. C. Daily News.*

THE STRANDING OF THE "AMARAPOORA."

The steamer ashore on the S.E. Promontory is, as we have previously stated, the *Amarapoora*, an iron screw steamer of 1,619 tons net register, and 300 horse-power. She was formerly owned by the British and Burmese Steam Navigation Company, and was for years engaged in the trade between Glasgow and Rangoon. The *Amarapoora* was on a voyage from British Columbia to Taku, with a cargo of railway ties and timber. She left Moji on the 3rd May, and save or less foggy weather was encountered until, on the morning of the 7th, the master and second officer being on the bridge, she grounded shortly before 1 a.m. on the Pinnacle Rocks, about 2¼ miles from the S.E. Promontory light. The crew remained by the ship until the morning of the 8th, when they landed and were taken in by the light-keepers Messrs Eccles and Johnson, by whom they were treated with every kindness. In fact, all the crew, officers and men, say that they cannot sufficiently express their appreciation of the great kindness shown during their week's sojourn in this isolated spot. The wreck was visited on the 10th by H.M.S. *Algerine*, which had been sent down from Chefoo by the Admiral to render any assistance, but none being required she returned to Chefoo. H.M.S. *Phœnix* also looked in on the morning of the 11th on her way south. The Indo-China Company's steamer *Eldorado* left Chefoo on the morning of the 14th with instructions to take the crew off and convey them to Shanghai. She arrived there just before dark and her signals were fortunately made out by the people in the lighthouse, and she proceeded as close as possible to the wreck and anchored. One of the *Amarapoora*'s boats with the chief officer and several men, came alongside and it was arranged that the whole of the crew, with the exception of the master and second engineer, who with the managing owner and his wife, remain by the wreck, should be transferred to the *Eldorado*, which was effected before midnight and the ship proceeded on her voyage to Shanghai. At the time of leaving the wreck she had about fourteen feet of water in the holds, but it is thought that her bottom is not badly damaged. She lies in a very good position, with about 2½ fathoms of water under her stern, and if the weather keeps fine and prompt measures for her salvage are taken, very little difficulty should be experienced in floating her, especially when the nature of her cargo is taken into consideration. About 1,000 ties had already been jettisoned, leaving 3,000 in the ship, together with about 100 large balks of timber. The captain and owner are expected in Shanghai in the course of a day or two, as soon as Lloyds' agent in Chefoo has visited the wreck, when an official enquiry into the cause of the stranding will probably be held. The officers and crew particularly wish to convey their thanks to the keeper of the S.E. Promontory lighthouse, and to Captain Tamplin and his officers for the kindness these gentlemen extended to them.—*N. C. Daily News.*

THE SUGAR TRADE AT KOBE.

(COMPILED BY GILMAN & CO.)

The following is an extract from the "Report upon the trade of Kobe for 1897 issued by the Hiogo and Osaka General Chamber of Commerce:—

HONGKONG REFINED.

Sugar.—A considerable increase is shown in the sales of Hongkong Refined Sugars, which amounted to 622,341 piculs during 1897 against 378,450 piculs in 1896. Price taken all round, remained very steady throughout the year though for some qualities very low prices had to be accepted to meet the competition of German Beet Sugars, imports of which showed a large increase over the quantity imported in 1896.

GERMAN BEET SUGAR.

Imports during the year amounted to about 202,000 piculs against 108,000 piculs in 1896.

Prices for granulated fluctuated between yen 7.50 and yen 8.00 per picul, the higher values being to some extent the result of enhanced rates of freight from Home, consequent upon scarcity of tonnage.

This state of things, coupled with cheap offers of Hongkong Sugars may be said to have greatly interfered with business in German "Beet" during the greater part of the period under review.

The year closed with stocks sufficient for some months to come.

BROWN SUGAR.

Imports during 1897 amount to 194,500 piculs against 136,000 in 1896. The market opened strong at the beginning of the season, but, owing to somewhat heavy arrivals, speedily fell away to below Manila values, which were well maintained throughout the season. The demand usually arising in the autumn was comparatively slight this year owing to the general scarcity of money and it was only towards the end of the year that the local market showed activity and firmness. Stocks on hand are small.

THE MERCANTILE BANK OF INDIA, LIMITED.

The fifth annual general meeting of the shareholders of this bank was held at Winchester-house, Old Broad-street, E.C., on the 19th April, Sir Alexander Wilson (the chairman) presiding.

The Chairman said—Gentlemen, it gives me great pleasure to meet you again and to present to you our report and balance-sheet for the year ended 31st December last. The balance-sheet, you will observe, is made up on precisely the same lines as last year, and the figures of capital and reserve remain as before, but deposits, the only item perhaps which requires special mention, show again a small increase. Throughout a considerable portion of the year the rate of exchange has ruled close upon the maximum of 1s. 4d., a condition of things which in the uncertainty of the future induces depositors in India in many cases to remit their money to England. Turning to the other side of the accounts you will notice that cash in hand and at bankers, money at call, and bullion aggregate over £500,000. And this amount, combined with over £200,000 of Indian Government securities, principally sterling, shows, I think you will admit, a very strong position as against the liabilities. Indeed, your directors pay particular attention to the necessity for the assets of the bank being kept perfectly liquid, and the items of bills receivable and loans are in this category. Taking the profit and loss account, I would observe that charges account show a slight increase. The directors keep a careful watch on this account, but the increase of dollar exchange necessitated [illegible] of the salaries of the staff in China, which accounts for [illegible] the increase. The net profit [illegible] than a year ago. [illegible] our gold capital [illegible] relatively small [illegible] ing the advantage [illegible] ances, we [illegible] done from the high value of [illegible] India. After paying the interim dividend [illegible] A" shares, there remains [illegible] available of 226,936 rs. 5d., which, [illegible] sanction, we propose dealing [illegible] follows:—A further dividend of 2½ [illegible] the "A" shares, making 5 per cent. [illegible] the year, and a dividend on the [illegible] of 3 per cent. for the year. These [illegible] will absorb £15,937 10s., and will leave [illegible] 13s. 5d. to be carried forward. The year [illegible] review has been in many ways one of [illegible] difficulties, the financial position [illegible] disorganised by war and famine in India. [illegible] trade has further been very curtailed in Western India by the plague which has been raging in the Bombay Presidency. Happily [illegible] crops are now assured for the current year, and latest accounts show an abatement of the plague, and peace has been established on the frontier. The currency troubles have been, and still are, a cause of perplexity. As you are aware, a committee is to be appointed to consider certain proposals sent home to the Secretary of State by the Government of India. What these proposals are I do not know, but it is hoped that some successful solution of this difficult question may be arrived at. Before formally proposing the adoption of the report, I shall be glad to answer any question you may desire to ask.

Questions having been asked, the report was adopted. The usual formal business having been transacted the meeting closed with a vote of thanks to the chairman and directors.

THE RIOTS IN ITALY.

London, 7th May.

Notwithstanding the abolition of the duties on grain, and the reduction in the price of bread, riots in different parts of Italy are increasing and the situation is most grave, notably at Turin, Florence and Leghorn. It is believed that the riots are political. Serious conflicts, attended with loss of life, have taken place between the troops and people at Milan, where the rioters barricaded the streets with overturned trains and furniture.

London, 8th May.

A force numbering eight thousand troops now occupies Milan.

Fugitives from the city say that during the riots three hundred rioters were killed and one thousand wounded. The disturbances were renewed this morning, but it is now officially reported that all is quiet.

London, 10th May.

Martial law now reigns throughout the greater part of Italy.

A circular issued by the Marquis di Rudini to the military commanders and prefects orders inflexible rigour in suppressing agitation.

The disturbances were continued to-day in Milan and Naples where a number of barricades were erected in the streets by the rioters, and several conflicts with the police and the military occurred.

The losses are unknown, as only official statements minimising the gravity of the disturbances are permitted to be published, and many newspapers have been confiscated.

A Socialist Deputy, who is a refugee at Begano, has stated it is intended to establish an Italian Republic similar to that of Switzerland.

London, 11th May.

Serious rioting has taken place in Florence in which two persons were killed. Martial law has been proclaimed in the city.

Rigid censorship prevents any direct news from Italy. All the railways there have been placed under military control. It is evident that the country is traversing one of the most grave crises since the unity of Italy was attained.
